VOL. IV.

PHOENIX, TUESDAY MORNING, OCTOBER 20, 1891.

No. 33.

THE MASKED ROBBER

SUCCESSFULLY "HOLDS UP" AND TAKES IN ANOTHER STAGE.

A Crime Rare in Arizona But Common in California—The Wells-Fargo Express Robbed But the Passengers Not Molested.

(Associated Press Dispatches.)

REDDING, Cal., Oct. 19.—The Redding and Weaverville stage was robbed this evening one mile and a half from Redding by a masked highwayman. The robber was armed with a double-barreled shot gun. He demanded Wells-Fargo's box but did not molest the passengers. After obtaining the express box the robber told the driver to give him regards to the "Dear people of Redding." A posse in pursuit of the highwayman whose plunder was small.

ESCAPED FROM SIBERIA.

Convict Stowaway Found on the Empress of India.

VANCOUVER, B. C., Oct. 19.—The steamship Empress of India, which left Yokohama at 3:30 p. m., Oct. 1, reached Victoria at 4:20 this morning, and after a brief stop proceeded to this port where she arrived at 11:25 this morning.

When the vessel had been but a short time at sea an interesting stowaway was unearthed. He was Demetrius Kholopitski, and was a Siberian convict. He had been sentenced to sixteen years' exile in Siberia, but after six years of almost unendurable hardships he had succeeded in making his escape into China. He made his way to the coast and managed to secure himself on the Empress of India. The passengers took much compassion on the unfortunate man, and with the aid of the officers, made the passage to Canada as comfortable as possible for him.

The steamer brings forty-one bags of mail and 104 tons of general cargo. On September 24, while proceeding to Shanghai a terrible typhoon struck the vessel, but no damage was done.

Japanese exchanges received by the steamer relate the following interesting events:

On September 14 the bark Arches of New Crowing was totally wrecked during a typhoon at the entrance of Nagasaki harbor. All on board perished. The crew of the vessel was composed of Chinese.

READY TO FIGHT FOR HIS BRIDE.

With a Pistol He Secures Her Mother's Consent.

DUBLIN, Ga., Oct. 19.—John Hester, aged 14, brother of the yard master whose exploits have frequently appeared in print, has been paying attention to Miss Alice Cobb, aged 12. She lives near Dublin and is a dashing and buxom lassie. This courtship progressed smoothly until Sunday, when young Hester demanded of the girl's mother that she consent to his marrying her daughter at once. She stubbornly refused and ordered him out of the house. He left swearing vengeance.

Last night he made his appearance again in a semi-intoxicated condition, holding a pistol in his right hand, and he went to whip a white army. Mrs. Cobb was busy preparing supper when he entered the kitchen and began flourishing a huge pistol. She endeavored to flee, but the way was barred by Hester, who stood at the entrance with a pistol pointed at her breast. Seeing that her life was in his hands, she consented to the marriage. A minister was sent for and in half an hour the young couple were man and wife.

AN INTERESTING QUESTION.

An Infant Sent to Prison With His Convict Mother.

WHITEHALL, N. Y., Oct. 19.—At Sandy Hill today Mrs. Alice Harvey of the city was sentenced to the Albany penitentiary for three years on her plea of guilty of assault in the first degree on her husband, whom she accused of drowning her husband in Lake Champlain about three weeks ago.

A feature of this case is that Mrs. Harvey has an infant under one year old. The court directed the sheriff to take the child with the mother to the penitentiary. That raises an interesting question. Can the keeper of a prison receive within its walls a person not under sentence even if that person is the infant of a convict mother, born in freedom and innocent of and crime?

A COW CAUSED THE WRECK.

Engine and Thirteen Cars Thrown From the Track.

ALBUQUERQUE, N. M., Oct. 19.—A freight wreck occurred on the Atlantic & Pacific near Navajo Springs last night. At a slight curve on the road a cow was noticed lying on the track, but not enough for the engineer to stop the train, although he whistled "down brakes." The engine and thirteen cars of merchandise for California were derailed. The engineer miraculously escaped with only slight bruises and cuts, but fireman Ed Clark was caught and hurt internally. A "hoo-fly" track was immediately set around the wreck and trains are not delayed.

THE RECLA MISSING.

Fears Entertained That She Has Foundered in the Gale.

VANCOUVER, Oct. 19.—The four-masted schooner Olga arrived yesterday from Yokohama with 1,066,500 pounds of tea. She reported that the Recla sailed for Vancouver with a cargo of tea four days before she did, and fears are entertained that she foundered in the terrific gale which raged on September 14 and the two following days.

Attempt to Kill the President of Nicaragua.

MASAGUA, Nicaragua, Oct. 19.—An attempt was made by a corporal of the police named Perez, to assassinate President Saca. Perez was caught on top of the roof over the president's sleeping apartments. He had already made an opening in the roof, made by the would-be assassin, but allowed him to continue his work. When Perez had made a hole, the president reproved him severely, and then,

THE CUSTOM HOUSE

MAKES A GOOD SIZED HAUL OF FRAUDULENT CIGARS.

Fifty Thousand Fraudulently Stamped Cigars Seized by Government Officials—A Firm in St. Augustine and One in New York Implicated.

(Associated Press Dispatches.)

SAN FRANCISCO, Oct. 19.—It became known today that a seizure of 50,000 fraudulently stamped cigars was made last Friday at the auction room of Davis, Haber & Co., of this city. The cigars were branded as coming from the factory of Goldar, Ensa & Eutenz, St. Augustine, Fla., but when the revenue officers wired that the firm's reply was returned that the cigars had not been made by them and that 20,000,000 fraudulent cigars bearing the firm's brand had been disposed of by unknown parties in and around San Francisco. Investigation showed that the cigars seized on Friday had been consigned to Davis, Haber & Co. by a New York firm, and that many of them had been made by Chinese manufacturers in this city and had been sent east, whence they were reshipped.

HE COULD SYMPATHIZE.

A Shabby-Coated Boy Who Understood Human Nature.

A lady, writing anonymously in the Atlantic Monthly, describes a little street encounter, in which she was put to shame in a most unlikely manner.

I was walking along a street given over to the smallest of shops and almost the cheapest of restaurants, when I saw a good looking ten-year-old boy in shabby-respectable attire.

It was autumn and I carried a bunch of shining, splendid maple leaves. He stopped as if he sought of them really took his breath away.

"Oh, give me one!" he gently exclaimed, in a manner that was more than polite. It lifted our interview straightway into some rare, superhuman atmosphere, where perfect simplicity became a matter of course. Unfortunately, this was not so becoming to me as to him.

I said: "Oh, I hate to!" but at the same time I began looking for the meanest little leaf I could find. When I had discovered it and was presenting it shamefacedly to him, he said, with a smiling face: "I know I'm being terribly stingy."

"Never mind," said my boy, in a big, masculine, comforting manner, "I know just how you feel."

He smiled his thanks reassuringly and we parted.

DEADLY OCCUPATIONS.

Men who Perform Work Which Results in Their Death.

There are many trades which means, sooner or later, sure death to the workman. In some cases death comes early; in others, where the man is working among cumulative poisons, it is lingering and painful in the extreme. But of all others, the salt-cake, bleaching powder and lime-house men have death most surely staring them in the face.

The acid gas given off from the salt-cake furnaces is very trying, and flannel protection over the mouth is used to ward this off, but in spite of it teeth and gums fall a victim to the acid. Very frequently bits get nibbled by the acid, and the men are often found with their mouths full of acid.

Lime is the principal ingredient out of which bleaching powder is made. Before it goes to the chlorine chambers, where it is to absorb the gas, it is carefully treated and reduced to a fine powder. It is sifted and beaten about and sacked, and the men who have to do this work have a job which no one need envy. Imagine working all day or night, as the case might be, in a fine mist of lime—lime particles lying about like a cloud of mosquitoes, with a far sharper bite, too. To protect themselves the men resort to a muzzle or to a piece of rag or flannel held tightly between the teeth. The exposed parts of the skin are carefully greased, and a sort of paper mask is improvised in addition to the caps which the men wear. In spite of everything, however, the lime gets in some where and inflicts its bite. All the time the work is carried on, breathing is a terrible effort. To breathe through the nose would have the direst consequences. A single inhalation, and the lime particles would lodge there. So the air has to be inhaled through the muzzle and given out through the nose. Naturally, nose-bleeding is a frequent complaint in the lime chamber and raked lightly over so that the gas shall have access to as large a surface area as possible, the doors are shut, the cracks stopped up with clay and an opening was made to admit the chlorine. It streams in and through the glass which is let into the door you can see the invasion of the green gas. A long period has to elapse before the lime has drunk its fill and become bleaching powder of the requisite strength; but at length, after the necessary tests, and perhaps a rearrangement of the surface and another dose of chlorine, things are ready for packing. The duties of the powder packer consist of filling racks with the bleaching powder. To do this he has to enter the chamber which for several days past has been charged with the chlorine gas. Though the worst of the gas has been allowed to pass out of the chamber be-

fore the packer enters it, the atmosphere is still charged with the deadly fumes. The heat is something tremendous, especially as the poor wretch who has to endure it is swathed about the head in a way that would protect him from Arctic cold.—Fall Mail Budget.

TERRITORIAL NEWS.

Items of Interest to Readers Clipped From Arizona Papers.

The good wishes of the friends of Special Deputy Collector Haynes were showered upon him last Monday at the depot, when he boarded the train for San Diego, Cal. where he goes to wed Miss Jennie Crepin, formerly a resident of our city. Miss Jennie is the daughter of Mr. Cronin, formerly of Tucson, well-known physician of Arizona.—Col. Dick Mariell, who has been spending some time at his ranch in Sonora near Hermosillo returned Wednesday. Cattle in his section are doing well. Messrs. Mehan and McClain returned Tuesday from a two weeks deer hunt in the mountains of Sonora. Some of their faithful friends report that they came in for a new supply of bacon.—Mr. Villident has returned from Paris after an absence of several months. He will leave in a few days for lower California to accept the position of surveyor for a French colony there.—Nogales Record.

The board of missions of the Protestant Episcopal church in the United States has re-appointed Rev. L. D. Mansfield, A. M. Missionary in Arizona, with headquarters at Tucson, for the current year, beginning September 1st, with the usual stipend; and Bishop Kendrick has appointed Mr. Mansfield Examining Chaplain for the jurisdiction of New Mexico and Arizona. The board of missions of the Protestant Episcopal church in the United States has re-appointed Rev. L. D. Mansfield, A. M. Missionary in Arizona, with headquarters at Tucson, for the current year, beginning September 1st, with the usual stipend; and Bishop Kendrick has appointed Mr. Mansfield Examining Chaplain for the jurisdiction of New Mexico and Arizona.

A final distribution was made today in the estate of Henry Dubacher. The entire property was valued at \$8,000, and was, according to the terms of the will, given to Frank Dubacher and Jo Muhheim without division.—J. H. Slaughter, a well-known stockman who has cattle that will not pull through till next summer, to get them to Kansas where alfalfa hay is worth \$3 per ton in the stack and corn 25 cents per bushel in the stack, with the stalk thrown in.

Miss Fancher of Bisbee, who has been the guest of Miss Nellie Wells for several days, returned home this morning. Miss Fancher is a very accomplished pianist, and has decided to open a class in music here, in the near future.—It is said that Chas. Granville Johnson is holding an inquest of a suicide at Fort Huachuca; that the first jury hung, and the deceased, now being granted a new trial, which is not taking place.—Tombstone Prospector.

The annual "big cry" of the Yuma tribe began last Sunday and continued "without adjournment" until Friday morning. Thursday was the most important day, and a large number of the townsfolk crossed the river to see the sham battle and dances. At night the visitors were treated to a grand feast of the night. The feast was a very attractive appearance behind the double glass window in J. B. Kelley's cold storage refrigerator at the Cabinet saloon.

Steeneger is sinking a well at Gramling's on the Camp Creek road. He has two men at work and the well has not attained a depth of fifty feet. The well is clear as glass and the graceful bunch of flowers presents a very attractive appearance behind the double glass window in J. B. Kelley's cold storage refrigerator at the Cabinet saloon.

CITY IN BRIEF.

NEWS HAPPENINGS IN AND ABOUT PHOENIX AND THE VALLEY.

Arrivals and Departures at the Various Hotels—Movements of Merchandise and Products to and From the City. Mines, Miners and Ore Shipments.

The REPUBLICAN has secured the services of a first class job printer from the east, and is now prepared to turn out the finest work that can be produced in the territory.

L. W. Blinn & Co received two carloads of lumber on Monday.

Three carloads of hay and one of barley went out for the south on Sunday's train, and two of hay went out yesterday.

J. L. Powell, the cattle buyer, returned from Los Angeles, having made a successful trip. Cattle are looking up, and the day is coming when cattlemen will be on top.

A. F. C. Kirchhoff, head bookkeeper in Goldman & Co.'s wholesale liquor establishment, has just received a new walnut desk on which he will figure up his accounts in future.

The Prescott Courier gives the people of the territory timely warning that there is a crook on the road, passing counterfeit five dollar gold pieces.

W. G. Moore, chief engineer of the Hackberry smelter, returned by this morning's stage to Big Bug. Billy says he likes the climate up there and will not come back to the valley before Christmas.

Captain John Kinney has on this trip a mining outfit. He will visit the dam at the Woods canal, and promises to send a report to the REPUBLICAN of what he sees in the Gila Bend country.

Jim McNamara was one of the successful sportsmen yesterday. He brought back many quail from the vicinity of Kyrene, where he hunted. He says quail are so numerous there that a good sportsman is almost ashamed to shoot them.

"Experience Social."—Come and see what it is. All friends of the First Baptist church are cordially invited to attend this social gathering to night, at the residence of Mrs. A. R. Cotton, Monroe and Hualapai streets. A fine program. A pleasant evening is assured.

Graybeal and Hudson drove in a fine herd of beef steers from their range in Deadman's canyon last Sunday. The bunch will count up nearly four hundred head. They will be put on alfalfa to put on a little avoirdupois before being butchered by D. L. Murray who is also a partner in the firm.

At P. Minor's ice factory a beautiful bouquet of phenix roses was frozen last Saturday in a solid cake of ice. The ice is clear as glass and the graceful bunch of flowers presents a very attractive appearance behind the double glass window in J. B. Kelley's cold storage refrigerator at the Cabinet saloon.

TALK AT TUCSON.

THE CONSTITUTION THE ALL ABSORBING TALK.

Vacancy in the Board of Supervisors Not to be Filled Until December—The Southern Part of the County Anxious for Representation.

Special to THE REPUBLICAN.

TUCSON, A. T., Oct. 19.—The recent marked improvement in the REPUBLICAN is a common subject of remark here. The new columns of your paper are read with much interest.

The absorbing topic at present is the constitution that has been drawn up to govern Arizona as a state. There is a proposed opposition to the constitution that will find vent at the polls, and the fact that many leading citizens are openly proclaiming their hostility to the constitution augurs ill for the adoption of the constitution as presented.

Many oppose the admission of the territory to the grounds of increased expense, and the small population that the new state would have, while others take exception to special features in the constitution. No one at the present moment can predict the fate of the constitution in Pima county; it is an unknown quantity at the present writing. The board of supervisors will not fill the vacancy in the board until the meeting in December, in order that the matter may receive mature deliberation. The southern part of the county is anxious to be represented on the board, but the opposition of an outside man will prevent this.

Some time ago, outside of Tucson two men were elected to the board, a man to represent the city and county each gave a fair representation on the board during the past four years. Judge Anderson came from Nogales and George Atkinson from Calabasas. At the present the outside county is represented by Mr. Bullock, from the northern part of the county. The principal thing is to have a business man selected, a man of conscientious scruples, and it does not particularly matter what part of the county he hails from. Mr. Allison was a resident of Tucson, and it is usually customary for the place of a retiring officer from the same section that he was elected from. It is a safe presumption that it will be a long time before the Democrats control our board of supervisors. The loss of Mr. Allison's place on the board was a serious blow to the Pima county Democracy.

Some few years ago an avenue 100 feet wide was opened across the valley from the foot of Congress street. Mr. Stevens, who was mayor of Tucson at the time, was chiefly instrumental in bringing about this advantageous move, and when the avenue was completed Tucson indulged in extensive ceremonies, and the avenue was named Stevens avenue, after the mayor. Within the past year was opened a road along this thoroughfare from the city and county each gave a fair representation on the board during the past four years. Judge Anderson came from Nogales and George Atkinson from Calabasas. At the present the outside county is represented by Mr. Bullock, from the northern part of the county. The loss of Mr. Allison's place on the board was a serious blow to the Pima county Democracy.

Some few years ago an avenue 100 feet wide was opened across the valley from the foot of Congress street. Mr. Stevens, who was mayor of Tucson at the time, was chiefly instrumental in bringing about this advantageous move, and when the avenue was completed Tucson indulged in extensive ceremonies, and the avenue was named Stevens avenue, after the mayor. Within the past year was opened a road along this thoroughfare from the city and county each gave a fair representation on the board during the past four years. Judge Anderson came from Nogales and George Atkinson from Calabasas. At the present the outside county is represented by Mr. Bullock, from the northern part of the county. The principal thing is to have a business man selected, a man of conscientious scruples, and it does not particularly matter what part of the county he hails from. Mr. Allison was a resident of Tucson, and it is usually customary for the place of a retiring officer from the same section that he was elected from. It is a safe presumption that it will be a long time before the Democrats control our board of supervisors. The loss of Mr. Allison's place on the board was a serious blow to the Pima county Democracy.
